where they reside. The women first

went to the health office and made a complaint against the stench arising

from the water which has stood on the street for so long that it has become a menace to the health of the commu-

visor and asked that some immediate

action be taken to put the street in such a condition that the people can get to and from their homes wihout the use

The delegation then went to see the superintendent of waterworks, but his deputy informed them that the depart-

ment had nothing to do with the case. They then took the elevator and called upon the mayor, who, after hearing

their story, promised that immediate action should be taken in the matter. Fearing that they should neglect to ful-

it will be remembered that just before the contest, the fight managers announced that they had made a side bet of \$200 and had agreed to change the articles of agreement to read, "winner take all." The writer was given positive assurance by both McClintte and Murphy that the agreement had been made, so confident were they of victory, and there is no coubt as to the truth of their statements. After the contest, however, Welch came in for a small share of the money. The total receipts were a little less than \$1,-20. The victor, Battling Nelson, got issee and Welch was given \$295. In addition to this, Manager Kelley paid for a dector's services and for a carriage, He also furnished return tickets and sleepers for the principals and their managers. All the expenses incident to pulling off the the expenses incident to pulling off t successful contest were shouldered Mr. Kelley; that is, with the exception board bills and personal expenses of the fighters. The club got 40 per cent of the recepts, and out of that paid for railroad fare to and from 'Frisco and Chicago, for preliminaries, referee, house rent, license, music, carpenter work and lumber, ad-vertising and hundreds of incidental terms. It is believed if the men were matched again, they would draw a much larger house. Manager Kelley has not decided yet just what he will do. He says he first wants to learn what the fight fans want and then arrange matters to

Kraemer, his staunch New York friend, and his younger brother Tom.

"It is doubtful if I fight for some time and perhaps not all summer," he said while having a bit of lunch with friends after the fight with Tommy Mowatt at the Waverly club. "My hands are sore as they can be without actually being broken and I have trained so long that I am heartily sick of the game. In addition to that I have money enough to last me for some time and with a few exhibitions I will get along all right.

"I would have been willing to go right back to San Francisco after a brief rest and light Britt again, but since he has some broken bones there will not be any chance of that for a long time, if, indeed, he ever agrees to meet me again. I have little hope of another meeting with him. "After my engagement in Boston, unless Pollok arranges some further exhibitions for me, I will return to Denver to see my folks and spend a little time at home. I have not been there in some time."

#### CLIFFORD-QUEENAN CONTEST Manager Eddie Robinson Announces That Articles Have Been Signed.

Eddie Robinson, who has arranged the Eddle Robinson, who has arranged the Clifford-Queenan contest, states that the men have finally signed articles of agreement. They call for a 20-round contest, Marquis of Queensbury rules, at the Grand theater on April 18. ## KILL THE SERPENT The worst disease the world has ever known, and the greatest

scourge to the human race, is Contagious Blood Poison. One drop of the virus of this loathsome disease will pollute and vitiate the purest and healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison; the skin breaks out in a red rash, the glands of the groins begin to swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body is covered with copper-colored splotches, pustular eruptions and sickening-looking sores and abscesses. Many a man has been cut down in the prime of life, or his health so impaired by this vile disease

that usefulness is destroyed, and he becomes a burden to himself and an object of pity to the rest of mankind. Contagious Blood Poison is the most annoying, humiliating and degrading of all diseases. It is as treacherous and elusive as the serpent. Under the

mercury and potash treatment all external evidences of it may disappear, and the victim misled, be buoyed up by false hopes of a cure, while the disease may even then have fastened its fangs in some vital spot within the system, where it is doing its destructive work unseen. Mercury has arrayed against it thousands upon thousands of physical wrecks and chronic invathese powerful drugs, only to be Greensburg, Pa., June 16, 1808. harassed by constantly returning
